'NEWLYWED,' B-IC-Yellow

We are honored and happy to introduce another winner from our own Chattanooga friend and fellow grower, Mr. Herschell Whittaker, whose introductions, THE VOLUNTEER and SARAH CAROLYN are known and grown all over the world.

This time he has come up with an excellent clear yellow "B" IC. We grew this in our garden in 1957, where nothing is pushed for size, all grown normally for strong healthy root production. We found this to be more nearly perfect than any yellow cactus we have ever grown, and we have grown every one that we could find, for yellow cactus have not been an easy one to find, especially with many good qualities. This one is a strong healthy grower, about 5 1/2' in our garden, taller in the Whittaker Garden, for he grows for exhibition. It has excellent stems, proportionate dark green foliage, insect resistant, good root production, and lovely full deep blooms of best form. It starts blooming early, and blooms profusely all season. Blooms maintain their size, and we appreciate how they hold their centers so that we are assured perfect blooms at all seasons. It is a large B, and has the ability to push above to an A.

If you are interested in blooms of top quality and plenty of them, then we recommend that you try it. You will not be disappointed.

Rated 85-3 at the Atlanta Trial Grounds.
